

R. A. “Chip” Worley, Jr., PE President/Chief Operating Officer

Mr. Worley has been with A&A since 1972, and is a registered professional engineer in four states. He is responsible for the design and administration of a variety of civil engineering projects including roads, water, sewerage, drainage, and site development. He specializes in the project management of such work from concept to finished construction. He is particularly active in economic development projects and is a graduate of the Virginia Institute of Economic Development.

Mr. Worley has worked extensively on funded loan/grant projects with state and local governments. He has been actively involved in successful funding applications for infrastructure projects, including those financed by Economic Development Administration, Appalachian Regional Commission, Virginia Department of Transportation, and Community Development Block Grant. He has worked extensively with other infrastructure programs including Rural Development, Virginia State Revolving Loan Fund, Southeast Rural CAP, and Virginia Resource Authority. He keeps up to date on funding requirements through attendance at workshops and training sessions, and by close communication with agency personnel at both the local and state level.

Within the firm, Mr. Worley assists project managers with technical and marketing strategy, provides training and specific project expertise, interacts with clients, and funding agency and regulatory personnel, and represents the firm at regional and state meetings of government officials at all levels. He has worked with state agencies such as the Virginia Department of Transportation, the Community College System, Department of Corrections, and with over 30 colleges and universities of the Commonwealth. Other clients include industry, towns, counties, cities, service authorities, and private concerns.

Mr. Worley is active in church and community activities, particularly with the Montgomery County Rotary Club and local literacy improvement efforts. He served as President of the club in 1994 - 1995.

Professionally, he is a member of the Virginia Society of Professional Engineers, the American Public Works Association, the American Water Works Association, the Virginia Rural Water Association, and the Geospatial Information and Technology Association.
